EDUCATIONAL HISTORY

BELLS UNIVERSITY OF TECHNOLOGY, OGUN STATE NIGERIA

OCT 2024 – JULY 2028

Undergraduate study in Computer Science

B.A.Sc. Computer Science

COURSE WORK

- Data Structures and Algorithms
- Object-Oriented and Functional Programming
- Data Science and Machine Learning
- Networking and Cyber Security
- Web Development and Cloud Management

NIGERIAN NAVY SECONDARY SCHOOL, OGUN STATE NIGERIA

OCT 2018 – JULY 2024

High School Education

WASSCE, NECO AND JAMB

Results available upon request

SKILLS

TECHINICAL SKILLS

PROGRAMMING LANGUAGES

PROFICIENT IN: *HTML5, CSS, JAVASCRIPT, C++, PYTHON*

PROGRAMMING TOOLS AND PLATFORMS

PROFICIENT IN: *VISUAL STUDIO CODE, SUBLIME TEXT, ANDROID STUDIO, FIGMA*

GITHUB, FIREBASE, GOOGLE CLOUD, MICROSOFT AZURE

PREVIOUS AND CURRENT APPLICATIONS:

- Website and Web Application Design and Development
- Software Design and Development
- Front-end and Back-end framework development
- Calculations and Arithmetic Problem solving

PERSONAL EFFECTIVENESS AND INTERPERSONAL SKILLS

- Teamwork and Collaboration
- Communication and Presentation
- Problem solving and Analytical thinking
- Time management and Organization
- Adaptability and continuous learning

CERTIFICATIONS

-ADVANCED C++

OCT 2024

SIMPLEARN, SKILLUP

-INTRODUCTION TO CYBER SECURITY

OCT 2024

SIMPLEARN, SKILLUP

-PROGRAMMING WITH PYTHON

SEPT 2024

SIMPLEARN, SKILLUP

-LEARN JAVASCRIPT

AUG 2024

SIMPLEARN, SKILLUP

-PYTHON ESSENTIALS 2

JUL 2024

CISCO NETWORKING ACADEMY

-DATA SCIENCE WITH PYTHON

MAR 2021

SIMPLEARN, SKILLUP

-WEB DEVELOPMENT AND DESIGN WITH HTML5 AND CSS

JUL 2018

SOFTNOTCH, ACADEMY

(All certifications will be made available upon request)

PROJECTS

1. ATUR SERVICE APP

Completed on: **AUG 2022**

DESCRIPTION:

The application is a mobile device-based application aimed at creating a bridge and connection between entrepreneurs and freelancers all around the world and customers within their various vicinities. One major challenge while creating this app was the fact that I had to juggle programming Computernet and this particular application which caused it to have a few bugs which I later got rid of with the aid of my elder brother but I never put the applications on any sale platform whatsoever.

TOOLS USED: *Android Studio, Firebase*

PROGRAMMING LANGUAGE USED: *Extensible Markup Language (XML), JavaScript*

2. COMPUTERNET

Completed on: **MAY 2022**

DESCRIPTION:

The idea of the application was to create a desktop-based search engine with which one could browse the internet with additional features such as precise search the app was designed to solve the problem of limited desktop-based search engines and give precise

search results. The application was programmed and designed by me with assistance from my elder brother and several other mentors I met online.

TOOLS USED: *Android Studio, Firebase*

PROGRAMMING LANGUAGE USED: *Extensible Markup Language (XML), JavaScript*
